

REMARKS

By this Amendment, claims 1, 2 and 8 have been amended to clarify the recited subject matter in accordance with the matters discussed during the personal interview courteously conducted with Applicant's representative on January 19, 2005. Claims 1-13 are pending.

As agreed to during the personal interview, the amendments provided herein are fully supported by the specification and patentably distinguish the claimed invention from the cited prior art Josse et al. (U.S. Pat. 6,104,929) and Bertacchi (U.S. Pat. 6,097,950). As agreed to during the personal interview, the claimed subject matter indicates patentable subject matter including recitation that the access parameter "independently indicates" whether there is entitlement to use the first, second or both networks. Thus, the rejection of claims 8-10 and 12 based on Bertacchi and the rejection of claims 1-7 and 11 based on Bertacchi and Josse et al. are traversed.

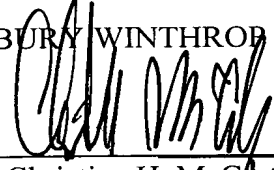

All objections and rejections having been addressed, it is respectfully submitted that the present application is in condition for allowance and a notice to that effect is earnestly solicited.

Please charge any fees associated with the submission of this paper to Deposit Account Number 033975. The Commissioner for Patents is also authorized to credit any over payments to the above-referenced Deposit Account.

Respectfully submitted,
